FighterCat Whitepaper

Community-driven crypto project for animals

Abstract

FighterCat is not just a cryptocurrency, but a global community on a mission to **improve the lives of animals worldwide**. By combining blockchain transparency, smart collars for pets, and a donation system, FighterCat creates an ecosystem where technology directly benefits animals.

1. Introduction

FighterCat started as a meme-inspired token but evolved into a **mission-driven ecosystem**:

For Pet Owners – innovative smart collars and app.
For Shelters – transparent donations and fundraising.
For Token Holders – utility, governance, and impact.

2. Community

The FighterCat community thrives on **X (formerly Twitter)**, **Telegram**, and other platforms. Holders participate in **DAO voting** and community-driven initiatives. Awareness campaigns and challenges strengthen adoption.

3. Tokenomics

Ticker: FIGHTERC
Network: Solana
Total Supply: 1,000,000,000
Mint & Freeze Revoked: Supply permanently capped

Category	Percentage	Tokens
Liquidity Pool	21%	210,000,000
IDO	5%	50,000,000
Airdrop	1%	10,000,000
Animals & App	36%	360,000,000

Marketing	20%	200,000,000
Team	15%	150,000,000
Community Rewards/Staking	2%	20,000,000

4. Smart Collar & App

Smart Collar Features:
- GPS/GLONASS tracking
- GSM/NB-IoT (SIM7000) connectivity
- BLE/Wi-Fi (ESP32)
- Accelerometer (BMA400)
- Li-Po battery, waterproof IP67 housing

FighterCat App:
- Real-time GPS location
- Health & activity monitoring
- Transparent blockchain donations
- Animal lovers community hub

The **FIGHTERC token** integrates with the app for **subscription payments**, **premium access**, and **DAO voting**.

5. Mission: Beyond Meme

FighterCat is committed to **donating part of profits** to shelters, publishing full **transparent reports**. We organize volunteer events, fundraising, and awareness campaigns to support animal protection worldwide.

6. Roadmap

Q4 2025 — Phase 1: Pre-sale & Community

- IDO on IxirPad

- Token listing on first DEX (Raydium) ~3 days after IDO

- Active community building (X, Telegram, partnerships)

- Finalization of token contracts & liquidity prep

Q1 2026 — Phase 2: Token Launch & First Donations

- Official DEX trading begins

- Initial liquidity pool

- Start of quarterly donation program (first report)

Q2 2026 — Phase 3: App MVP & Collar Prototype

- Release of FighterCat App (MVP: donations + GPS map mock)

- Smart collar prototype development and lab testing

Q3 2026 — Phase 4: Field Tests & Listings

- Collar field tests with pets

- App Beta (GPS + activity tracking)

- Additional listings (DEX + CEX)

Q4 2026 — Phase 5: Pre-orders & Pilot Batch

- Open pre-orders for collars

- Pilot production batch (50–200 units)

- Beta community testers

2027 — Phase 6: Mass Production & Expansion

- Mass collar production

- Full app release (GPS, health monitoring, alerts, DAO voting)

- Partnerships with shelters & global scaling

7. Conclusion

FighterCat = **Community** + **Token** + **Smart Collar** + **Mission**.
A deflationary token with **real-world utility** and **social impact**.
